Boltz Lego Robotics Club registration Winter/Spring 2022

Thank you for your interest! No experience is needed – just a willingness to hang out and have fun!

Boltz Lego Robotics Club will meet on Fridays during advisory period beginning January 7, 2022.
Students, you will have the opportunity to:
- meet other students with similar interests
- have fun!
- free build as you wish
- use FIRST Lego League challenge kits from previous years' competitions to build and code robots using EV4 software
- show off your builds and robots at an end-of-year talent show (details TBD!)
- find out about the FIRST Lego League competition held each fall that Boltz usually participates in

The $25 club fee covers maintenance of Boltz's lego robotics supplies. Please complete this student/parent registration form and send a check payable to Boltz Middle School. (Sorry, SchoolPay is not an option at this time). Fee assistance may be available – please contact Boltz.

A Boltz parent supervises this team. Additional parental support is very welcome. No robotics experience is needed, but registration as a PSD Volunteer is required at www.psdschools.org/community/volunteers

PSD and Boltz health, student conduct, and liability protocols will be followed.

Student name (First and Last): _____

School email: _____

Grade: _____   Advisory Teacher: _____

Parent name (First and Last): _____

Parent email: _____
